Information Technology Briefing

Subject: Florida Wing Website
Initiated By: Maj Robert Sims, Dir. Of Information Technology
Directed To: Commanders – All Levels

Date: 15 Oct 2004
ITB No.: 04-0003
This document is not to be distributed
to levels below those directed to.

As requested by the Florida Wing Commander, a new website for Florida Wing was uploaded on 14 October 2004. Although the new website offers a new look and feel, its primary purpose is to offer another communications medium for members to retrieve information assisting them in being a successful and productive member of Civil Air Patrol. The secondary purpose is to offer an outlet for news about fellow members, opportunities within the wing, and upcoming events.

The success of the website depends greatly on all commanders making those within their units aware of its existence and usefulness. The information gathered for members will grow and change over time so it is important to view the site from time-to-time. Positive and not so positive input by all members is encouraged so the website can evolve as your needs evolve. The webmaster can be contacted at development@flcadet.com.

On a similar note, each unit has the opportunity to have free server space (at a \$20/yr donation) on the CAP.GOV server. Units wishing to use this opportunity need to contact the Director of Information Technology for assistance.

Some units already using the server within Florida Wing are:

Deland Comp Sq at <http://flwg.cap.gov/deland>
Group 2 Hq at <http://flwg.cap.gov/HQGroup2>
MacDill Comp Sq at <http://flwg.cap.gov/mcs>
Central Florida Comp Sq at <http://flwg.cap.gov/CFCS>
